

Questions to Engineers when deciding the best ozone equipment for your client:

Are they or do they provide.....

- Made in the USA Ozone Generator (We are)
- UL Listed Ozone Generator (Not just UL Classified)
- UL508A Generation Control System (Standard)
- PLC (No Old Relay Control)
- NEMA12, NEMA4, NEMA4X Options (NEMA12 Standard)
- PID Linear Control 100:1 Turndown from ORP (No Others that we know of)
- 240V Power (Unaffected by Power Fluctuations)
- Very High Efficiencies
- Air Cooling to 40 lbs/day (No Chiller)
- Water Cooling to 1000 lbs/day (Pinnacle Ozone Solutions) See <http://pinnacleozonesolutions.com/>
- Multiple Ozone Outlet Manifold from Central Ozone System (Several of these provide to customers)
- DATA LOG Options (Real Time Information on your systems)
- Ethernet/Internet Options (Remote Control and Monitoring)
- Full Turnkey Systems Ozone/Oxygen/Gas-Degas-Transfer/Destruct/Backflow/Booster-Pump on ONE Skid (See Attachment)
- Industry Leading Plasma Block® Technology Powered by Guardian
- One Stop Shopping (Guardian is an Industrial Automation & Controls Engineering/Manufacturing Company for the Aerospace and Defense Markets)

We have generated over 1000 applications from Bottled Water to Natural Gas Drilling with worldwide coverage.

Customer Base (Partial):

- Coco-Cola North America (CIP Systems)
- Dasani (Bottled Water High Springs FL)
- Publix Lakeland & Deerfield Beach FL (Bottled Water)
- United Space Alliance Cape Canaveral (3-1200 Ton Cooling Towers)
- Canadian Oil Sand (Production Facilities Wastewater Treatment)
- Southwestern Energy (Advanced Oxidation Natural Gas Frac Water Treatment) more than 25 systems in frac applications.
- Sun Pacific (Cold Storage Fruit & Vegetable)
- SeaWorld Orlando & San Antonio (Life Support)
- Busch Gardens Tampa FL (Life Support)
- San Diego Zoo (Polar Bear Exhibit, Elephant Odyssey, Jaguar Exhibit)
- Jacksonville Zoo (Pond Water Treatment)
- Hawaiian Tropic (RO Water Treatment)
